Prices and Rates for Emergency

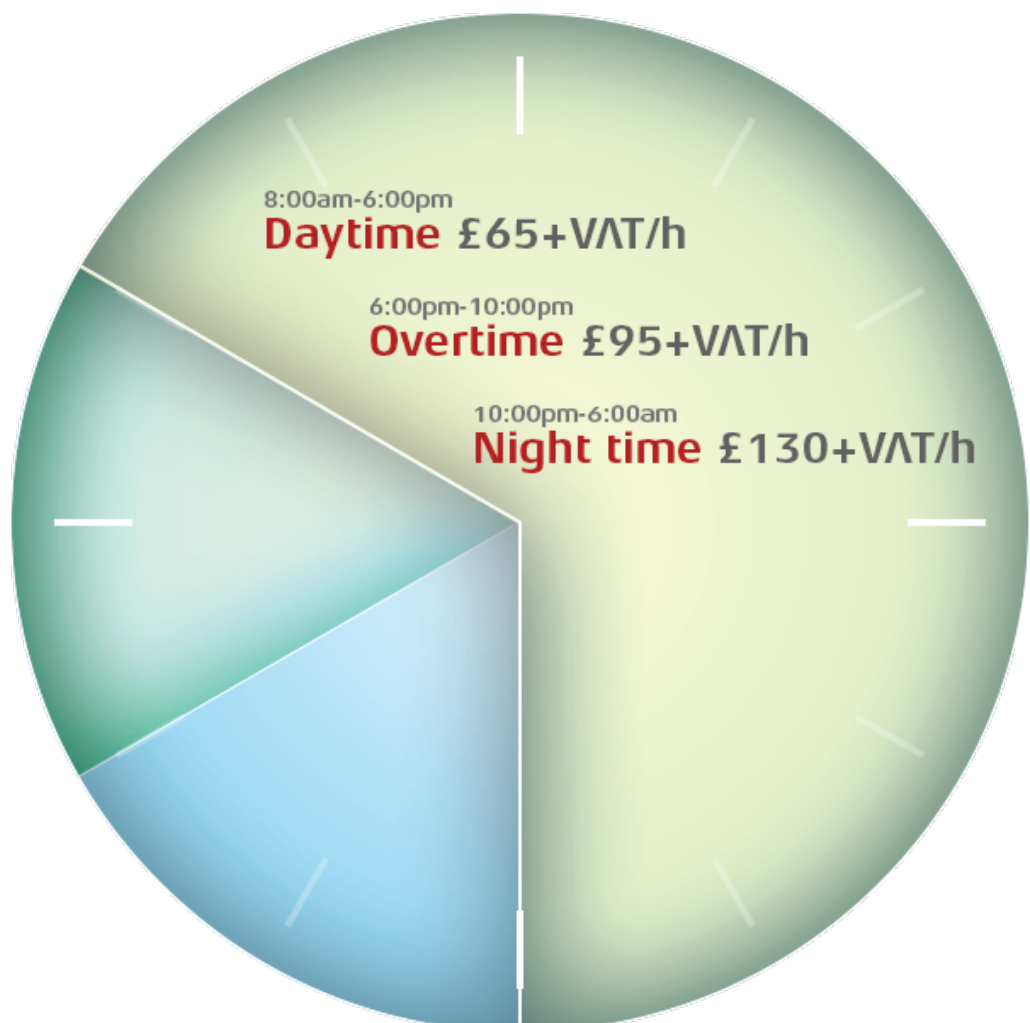

London Electricians know that when an emergency occurs in your home, you want it to have the minimal possible effect on your daily routine. This is why when you call out one of our engineers they will be able to quote you an estimated price and time scale before starting work.

Daily rate:
£300+VAT/day

Night rates may vary. Parking & Congestion charges will also apply.

Initial payment is for the first hour, this is a minimum charge regardless of the time under an hour it takes to repair the fault. Parking and congestion charges may also apply and all prices are listed as before VAT and after initial minimum hour.
